CAMBRIDGE

MAPLE WOOD

CARAMEL FINISH

MOCHA GLAZE

**CAMBRIDGE** Experienced decorators know that bold geometry can bring a sense of order and organization to even the largest, or smallest of kitchens. And with its finely beaded doors and deep raised panel design, Cambridge Maple provides the perfect picture frame for the portrait of your life.

# CAMBRIDGE MAPLE

CAMBRIDGE | MAPLE WOOD | CARAMEL FINISH | MOCHA GLAZE

CAMBRIDGE KITCHEN Mocha glaze makes this Cambridge Maple Caramel kitchen come alive by accenting the classical beading on the doors and drawer panels. Open shelving and glass mullion doors complete the picture in this smart, sophisticated setting.

*Practically perfect! The Natural finish of this Cambridge Maple kitchen shows why maple has always been a favorite American hardwood. Fine-grained and mellow, with just enough figure to be intriguing, it softens the strong vertical lines of the design.*

*Every home has different needs and every homeowner has different tastes. That's why we offer Custom Choice. If you have unique ideas for your dream kitchen, Custom Choice allows you to modify an existing HomeCrest design into exactly what you want. You can also order cabinets in special sizes and add decorative doors or create one-of-a-kind furniture pieces. Your design options are virtually limitless.*

All HomeCrest cabinets meet or exceed the requirements and specifications of ANSI A161.1/2000 and are certified in accordance with KCMA specifications. HomeCrest takes great care in the selection and application of materials to give your cabinetry a fine furniture finish. Solid wood frames are finished with stain and a durable catalyzed varnish. By nature, hardwoods expand and contract with temperature and humidity level changes and over time seam lines will form at front frame joints. Additionally all surfaces will be affected by exposure to sunlight, smoke, household cleaners and other substances making it difficult to match existing cabinetry at a later date. This is especially true on light or frost finishes. These occurrences are normal and not the result of defects in materials or workmanship. On thermofoil lines HomeCrest recommends providing a 1-1/2" clearance between thermofoil surfaces and any heat source. This is especially important when installing ovens with self-cleaning features. Due to continuous product improvements, specifications are subject to change without notice. Colors depicted in printed photographs may not reflect actual finish color. Please contact your HomeCrest representative for color samples.
