OAK WOOD

LIGHT FINISH

HERITAGE With Heritage Oak, it's all about choices. Your choice of solid oak hardwood doors in three different finishes and three different styles. Your choice of a wide selection of decorative trim moldings and a generous range of organization accessories. Whatever your choice, HomeCrest cabinetry can make your dream kitchen a reality.

HERITAGE | OAK WOOD | LIGHT FINISH

HERITAGE SIDEBOARD With Custom Choice, there's no limit to where your imagination can take you! This elegant sideboard in Heritage Oak Light incorporates a wall cabinet with raised panel doors, an integrated plate rack and a handy brace of apothecary drawers for storing silverware or other kitchen items. A marble-topped base cabinet completes this exquisite Custom Choice piece, bringing the luxury of custom cabinetry within your reach.

*Who says beauty can't be practical?
Built-in filing drawers are just the right
size for organizing household records
and home office documents.*

Every home has different needs and every homeowner has different tastes. That's why we offer Custom Choice. If you have unique ideas for your dream kitchen, Custom Choice allows you to modify an existing HomeCrest design into exactly what you want. You can also order cabinets in special sizes and add decorative doors or create one-of-a-kind furniture pieces. Your design options are virtually limitless.

See warranty for details.

All HomeCrest cabinets meet or exceed the requirements and specifications of ANSI A161.1/2000 and are certified in accordance with KCMA specifications. HomeCrest takes great care in the selection and application of materials to give your cabinetry a fine furniture finish. Solid wood frames are finished with stain and a durable catalyzed varnish. By nature, hardwoods expand and contract with temperature and humidity level changes and over time seam lines will form at front frame joints. Additionally all surfaces will be affected by exposure to sunlight, smoke, household cleaners and other substances making it difficult to match existing cabinetry at a later date. This is especially true on light or frost finishes. These occurrences are normal and not the result of defects in materials or workmanship. On thermofoil lines HomeCrest recommends providing a 1-1/2" clearance between thermofoil surfaces and any heat source. This is especially important when installing ovens with self-cleaning features. Due to continuous product improvements, specifications are subject to change without notice. Colors depicted in printed photographs may not reflect actual finish color. Please contact your HomeCrest representative for color samples.
