

JAMISON CHERRY

JAMISON

CHERRY WOOD

SPICE FINISH

EBONY GLAZE

JAMISON Charming. A Jamison Cherry kitchen that reflects you and your personality. Solid cherry hardwood accented with an ebony glaze and decorative moldings add elegance and charm. A bookcase unit and mullion doors offer a place for collectibles. The wine cubby, plate rack and appliance garage keep often-used items within convenient reach — without sacrificing style. With HomeCrest, it's never been easier to express your creativity!

JAMISON C H E R R Y

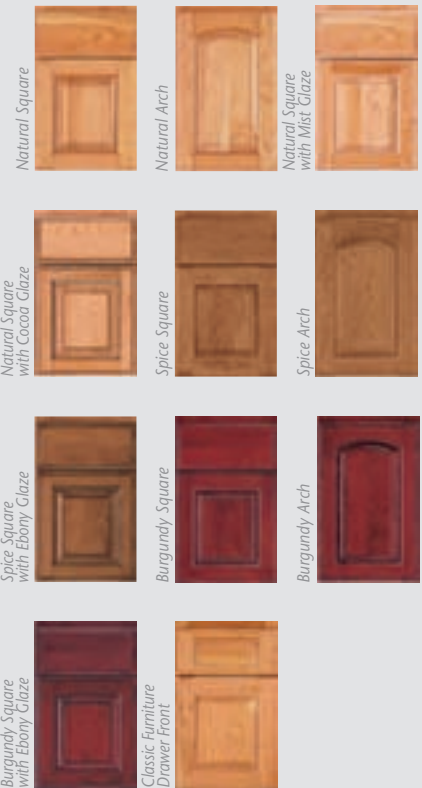

JAMISON | CHERRY WOOD | NATURAL FINISH | MIST GLAZE

JAMISON KITCHEN Transform your home into a French Provincial cottage with Jamison Cherry Natural. Here, a Mist glaze lightens and brightens the wood's natural tones while arched and curtained glass-mullion doors heighten the cottage effect. Decorative scrollwork and contrasting apothecary drawers complete this delightful setting.

Arch doors and Ebony glaze accent the homespun charm of Jamison Cherry Spice while glass mullion doors add depth and dimension.

Every home has different needs and every homeowner has different tastes. That's why we offer Custom Choice. If you have unique ideas for your dream kitchen, Custom Choice allows you to modify an existing HomeCrest design into exactly what you want. You can also order cabinets in special sizes and add decorative doors or create one-of-a-kind furniture pieces. Your design options are virtually limitless.

All HomeCrest cabinets meet or exceed the requirements and specifications of ANSI A161.1/2000 and are certified in accordance with KCMA specifications. HomeCrest takes great care in the selection and application of materials to give your cabinetry a fine furniture finish. Solid wood frames are finished with stain and a durable catalyzed varnish. By nature, hardwoods expand and contract with temperature and humidity level changes and over time seam lines will form at front frame joints. Additionally all surfaces will be affected by exposure to sunlight, smoke, household cleaners and other substances making it difficult to match existing cabinetry at a later date. This is especially true on light or frost finishes. These occurrences are normal and not the result of defects in materials or workmanship. On thermofoil lines HomeCrest recommends providing a 1-1/2" clearance between thermofoil surfaces and any heat source. This is especially important when installing ovens with self-cleaning features. Due to continuous product improvements, specifications are subject to change without notice. Colors depicted in printed photographs may not reflect actual finish color. Please contact your HomeCrest representative for color samples.
