

LAUREL CHERRY

LAUREL

CHERRY WOOD

SPICE FINISH

LAUREL Add a taste of honey to your kitchen with the mellow warmth of Laurel Cherry. Distinctively styled, its mortise and tenon corners, flat panels and hardy construction are earthy and honest. So brew a pot of tea and invite some friends over. With Laurel Cherry, home is where the heart is.

LAUREL CHERRY

LAUREL | CHERRY WOOD | NATURAL & BURGUNDY FINISHES

LAUREL BATHROOM Laurel Cherry is amazingly flexible. Here, a rustic-style vanity in Natural finish harmonizes with a corner cabinet in Burgundy finish. Note how the vanity's spool-turned columns and contrasting drawer pulls add to the vintage effect of the setting.

This Custom Choice, Laurel Cherry Spice island wall cabinet on toe kick is not only stylish but supremely practical, too.

Every home has different needs and every homeowner has different tastes. That's why we offer Custom Choice. If you have unique ideas for your dream kitchen, Custom Choice allows you to modify an existing HomeCrest design into exactly what you want. You can also order cabinets in special sizes and add decorative doors or create one-of-a-kind furniture pieces. Your design options are virtually limitless.

All HomeCrest cabinets meet or exceed the requirements and specifications of ANSI A161.1/2000 and are certified in accordance with KCMA specifications. HomeCrest takes great care in the selection and application of materials to give your cabinetry a fine furniture finish. Solid wood frames are finished with stain and a durable catalyzed varnish. By nature, hardwoods expand and contract with temperature and humidity level changes and over time seam lines will form at front frame joints. Additionally all surfaces will be affected by exposure to sunlight, smoke, household cleaners and other substances making it difficult to match existing cabinetry at a later date. This is especially true on light or frost finishes. These occurrences are normal and not the result of defects in materials or workmanship. On thermofoil lines HomeCrest recommends providing a 1-1/2" clearance between thermofoil surfaces and any heat source. This is especially important when installing ovens with self-cleaning features. Due to continuous product improvements, specifications are subject to change without notice. Colors depicted in printed photographs may not reflect actual finish color. Please contact your HomeCrest representative for color samples.
