

LAUREL OAK

LAUREL

OAK WOOD

NATURAL FINISH

LAUREL Functionality and beauty go hand-in-hand in this magnificent kitchen in Laurel Oak. A Natural finish accentuates the wood's characteristic golden glow while recessed panel design and solid oak door frames evoke memories of a simpler, gentler time. For a timeless look that never goes out of style, nothing compares to Laurel Oak.

LAUREL OAK

LAUREL | OAK WOOD | LIGHT FINISH

LAUREL BATHROOM A place for everything and everything in its place. The linen cabinet and bookcase unit provide generous organization space just where you need it most — around the vanity. The recessed panel oak cabinet style lends itself to accents such as large cove molding around the upper cabinets and frosted glass cabinet doors.

Custom Choice wall cabinet with integrated drawer in Laurel Oak Light.

CUSTOM CHOICE

Every home has different needs and every homeowner has different tastes. That's why we offer Custom Choice. If you have unique ideas for your dream kitchen, Custom Choice allows you to modify an existing HomeCrest design into exactly what you want. You can also order cabinets in special sizes and add decorative doors or create one-of-a-kind furniture pieces. Your design options are virtually limitless.

All HomeCrest cabinets meet or exceed the requirements and specifications of ANSI A161.1/2000 and are certified in accordance with KCMA specifications. HomeCrest takes great care in the selection and application of materials to give your cabinetry a fine furniture finish. Solid wood frames are finished with stain and a durable catalyzed varnish. By nature, hardwoods expand and contract with temperature and humidity level changes and over time seam lines will form at front frame joints. Additionally all surfaces will be affected by exposure to sunlight, smoke, household cleaners and other substances making it difficult to match existing cabinetry at a later date. This is especially true on light or frost finishes. These occurrences are normal and not the result of defects in materials or workmanship. On thermofoil lines HomeCrest recommends providing a 1-1/2" clearance between thermofoil surfaces and any heat source. This is especially important when installing ovens with self-cleaning features. Due to continuous product improvements, specifications are subject to change without notice. Colors depicted in printed photographs may not reflect actual finish color. Please contact your HomeCrest representative for color samples.
