

MADISON CHERRY

MADISON

CHERRY WOOD

BURGUNDY FINISH

EBONY GLAZE

MADISON It's easy to lose yourself in a Madison Cherry kitchen. Beaded doors, recessed panel styling, and the rich hue of cherry will take you anywhere your imagination beckons. Burgundy finish with Ebony glaze imparts a sense of distant days and faraway places. So put on a pot of tea, flip open a good novel, and start living the adventures of your life.

MADISON CHERRY

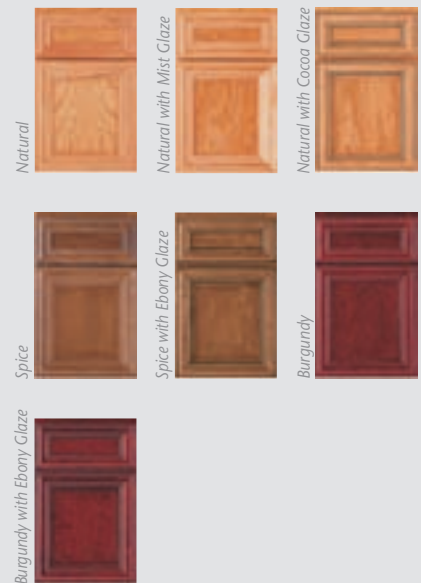

MADISON | CHERRY WOOD | SPICE FINISH

MADISON BATHROOM No matter the season, your bathroom will always be warm with Madison Cherry Spice. Its warm glow complements virtually any décor and gives any setting an air of solace and relaxation. Vertical beading and mitered crowns lend an air of classical good taste.

Glass mullion doors and a finished interior cabinet in Madison Cherry Burgundy provide an impression of depth and dimension. They're quite practical, too!

Every home has different needs and every homeowner has different tastes. That's why we offer Custom Choice. If you have unique ideas for your dream kitchen, Custom Choice allows you to modify an existing HomeCrest design into exactly what you want. You can also order cabinets in special sizes and add decorative doors or create one-of-a-kind furniture pieces. Your design options are virtually limitless.

See warranty for details.

All HomeCrest cabinets meet or exceed the requirements and specifications of ANSI A161.1/2000 and are certified in accordance with KCMA specifications. HomeCrest takes great care in the selection and application of materials to give your cabinetry a fine furniture finish. Solid wood frames are finished with stain and a durable catalyzed varnish. By nature, hardwoods expand and contract with temperature and humidity level changes and over time seam lines will form at front frame joints. Additionally all surfaces will be affected by exposure to sunlight, smoke, household cleaners and other substances making it difficult to match existing cabinetry at a later date. This is especially true on light or frost finishes. These occurrences are normal and not the result of defects in materials or workmanship. On thermofoil lines HomeCrest recommends providing a 1-1/2" clearance between thermofoil surfaces and any heat source. This is especially important when installing ovens with self-cleaning features. Due to continuous product improvements, specifications are subject to change without notice. Colors depicted in printed photographs may not reflect actual finish color. Please contact your HomeCrest representative for color samples.
