TOFFEE FINISH

MOCHA GLAZE

MADISON More than just a place for cooking, the kitchen is the heart of your home. It's a gathering place for friends and family, a place where memories are made. Make your memories even more precious with Madison Maple. Finely beaded doors with stylish profiling and recessed panels provide a sumptuous backdrop for the best years of your life.

MADISON MAPLE

MADISON | MAPLE WOOD | SORREL FINISH

MADISON KITCHEN This kitchen in Madison Maple Sorrel accentuates the wood's fine, subtle grain while glass mullion doors add depth and dimension. Note how the recessed panel design contributes to the pleasing geometry of the setting, giving it a sense of organization and tidiness.

A classic crown molding, accented with dentil detailing in Madison Maple Sorrel brings a taste of fine furniture to any room.

Every home has different needs and every homeowner has different tastes. That's why we offer Custom Choice. If you have unique ideas for your dream kitchen, Custom Choice allows you to modify an existing HomeCrest design into exactly what you want. You can also order cabinets in special sizes and add decorative doors or create one-of-a-kind furniture pieces. Your design options are virtually limitless.

All HomeCrest cabinets meet or exceed the requirements and specifications of ANSI A161.1/2000 and are certified in accordance with KCMA specifications. HomeCrest takes great care in the selection and application of materials to give your cabinetry a fine furniture finish. Solid wood frames are finished with stain and a durable catalyzed varnish. By nature, hardwoods expand and contract with temperature and humidity level changes and over time seam lines will form at front frame joints. Additionally all surfaces will be affected by exposure to sunlight, smoke, household cleaners and other substances making it difficult to match existing cabinetry at a later date. This is especially true on light or frost finishes. These occurrences are normal and not the result of defects in materials or workmanship. On thermofoil lines HomeCrest recommends providing a 1-1/2" clearance between thermofoil surfaces and any heat source. This is especially important when installing ovens with self-cleaning features. Due to continuous product improvements, specifications are subject to change without notice. Colors depicted in printed photographs may not reflect actual finish color. Please contact your HomeCrest representative for color samples.
